REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors

Margaret A. Cargill Foundation

We have audited the accompanying consolidated financial statements of Margaret A. Cargill Foundation and Subsidiaries, which comprise the consolidated statements of financial position as of December 31, 2020 and 2019, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Margaret A. Cargill Foundation and Subsidiaries as of December 31, 2020 and 2019, and the consolidated changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary schedule

The accompanying schedule of activities and functional expense analysis for the year ended December 31, 2020 is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Chicago, Illinois September 20, 2021

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Margaret A. Cargill Foundation (MAC Foundation) is a Minnesota nonprofit corporation with a purpose of making grants for charitable purposes. MAC Foundation is dedicated to providing meaningful assistance and support to society, the arts, and the environment. MAC Foundation provides meaningful support through long-term relationships with strategic grantee partners to make a measurable and sustainable difference on our identified priority problems.

Consolidation

MAC Foundation is the sole member of Rowland Shady Oak Properties, LLC which holds certain real property used in the conduct of the activities of MAC Foundation. MAC Foundation is also the sole member of Margaret A. Cargill Philanthropic Services, LLC, which incurs employee-related costs for MAC Foundation and Anne Ray Foundation, a related party (see Note 9). In addition, MAC Foundation is the sole member of Country Club Road, LLC which was formed to hold certain real property. MAC Foundation was the sole member of Laurel Bay Reef, LLC until it was dissolved in December 2019. The activities of Rowland Shady Oak Properties, LLC, Margaret A. Cargill Philanthropic Services, LLC, Laurel Bay Reef, LLC and Country Club Road, LLC are consolidated with those of MAC Foundation. All intercompany transactions have been eliminated upon consolidation.

Net Asset Classification

Net assets, revenues, gains and losses, and expenses are classified based on donor-imposed restrictions. Accordingly, the net assets of MAC Foundation and changes therein are classified and reported as follows:

- Without Donor Restrictions Net assets over which the directors have discretionary control.
- With Donor Restrictions Net assets subject to donor-imposed restrictions.

MAC Foundation has no net assets with donor restrictions.

Cash and Cash Equivalents

Cash and cash equivalents include money market mutual funds.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Investments

Investments, including alternative investments, are stated at fair value based either on quoted market prices or, for certain investments with no readily available quoted market prices, on fair values as determined by management based on review of valuation information provided by MAC Foundation's investment managers and other factors. Directly owned positions consist of public equities; credit investments; private investments focused in equity, credit and real asset strategies; and equity, foreign currency and interest rate derivatives. Public equities are generally valued using the official close price as quoted on the primary exchange. Credit investments are generally valued using prices obtained from third-party pricing vendors who primarily use broker quotes and other observable market data. Private investments are generally valued using unobservable inputs including recent transaction activity, third-party appraisals and projected cash flows. Equity, foreign currency and interest rate derivatives consist of exchange-traded futures, options and forward foreign currency contracts. Exchange-traded futures and options are valued based on quoted prices from the exchange. Over-the-counter options are valued using prices obtained from third-party pricing vendors who utilize pricing models and other observable market data. Forward foreign currency contracts are valued based on forward foreign exchange rates applied to the notional amounts stated in the contracts. Cash equivalents include money market funds which are valued at net asset value (NAV).

Alternative investments consist of investments in commingled funds, fund of funds and other private investment entities with no readily available quoted market price. In valuing these investments, management considers the audited financial statements of the investee, the cost of the investments, developments since acquisition, estimates as to the effect of future developments, general economic conditions, and other pertinent factors. MAC Foundation uses the "practical expedient" under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820: Fair Value Measurements and Disclosures, which allows for the use of MAC Foundation's proportionate share of the NAV as fair value if certain conditions are met. These alternative investments are included among equities, credit, private credit, private equity, and real assets categories as shown in Note 3.

Professional standards allow entities the irrevocable option to elect to measure certain financial instruments and other items at fair value for the initial and subsequent measurement on an instrument-by-instrument basis. MAC Foundation has elected to measure all investments at fair value. MAC Foundation may elect to measure newly acquired financial instruments at fair value in the future.

Investment return, net on the consolidated statements of activities includes net unrealized gains and losses, realized gains or losses, and interest and dividend income, net of investment expenses. Purchases and sales of investments are reflected on a trade-date basis. Realized gains or losses on sales are based on the specific identification method. Interest income is recorded on the accrual basis, and dividend income is recorded on the ex-dividend date.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

<u>Investments – continued</u>

In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated statements of financial position and consolidated statements of activities.

Grants

In June 2018, the FASB issued Accounting Standards Update (ASU) 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, which clarifies and improves the scope and accounting guidance around contributions received and made by not-for-profit organizations. This guidance is effective for resource providers for annual periods beginning after December 15, 2019, with early application permitted. MAC Foundation adopted this guidance effective for the year ended December 31, 2020 and it had no impact on how MAC Foundation accounts for its grantmaking activities.

Grant commitments are charged to operations at the time the grants are approved. Grants that are payable and considered long term are recorded at their net present value. A conditional promise to give is recognized in the period in which the recipient meets the terms of the condition. As of December 31, 2020 and 2019, MAC Foundation had conditional grants outstanding of \$300,000 and \$1,750,000, respectively.

Concentration of Credit Risk

At times during the year, MAC Foundation may have cash in excess of federally insured limits of \$250,000 per financial institution.

Income Tax Status

MAC Foundation has been recognized by the Internal Revenue Service (IRS) as exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC) and, accordingly, is generally not subject to income taxes. However, MAC Foundation is subject to taxes on investment income as a private foundation and on unrelated trade or business income.

MAC Foundation has adopted guidance regarding the recognition of uncertain tax positions. MAC Foundation believes it has appropriate support for investment income and unrelated trade or business positions and, as a result, does not have uncertain tax positions that have a material impact on the consolidated financial statements.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Distribution Requirements

MAC Foundation is subject to IRC provisions requiring it to annually disburse approximately 5% of the fair market value of investment assets as defined by tax rules. This payout requirement may be satisfied by payments for grants, program-related investments, direct conduct of charitable activities and grantmaking expenses. MAC Foundation exceeded the distribution requirements for the years ended December 31, 2020 and 2019.

Classification of Expenses

Grants and expenses associated with MAC Foundation's grantmaking activities are considered to be program expenses while all other expenses of MAC Foundation are considered to be either investment or management and general expenses.

Foreign Currency

Investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investments and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

MAC Foundation's financial instruments are cash and cash equivalents, receivables, prepaid expenses, investments, program-related investments, accounts payable and other liabilities, grants payable and postretirement benefit liability. The recorded values of cash and cash equivalents, receivables, prepaid expenses, and accounts payable and other liabilities approximate their fair values based on their short-term nature. Investments are carried at fair value. The recorded values of other assets approximate their fair value based on appraisals and other market data. The carrying value of program-related investments, grants payable and the postretirement benefit liability are based on discounted cash flows, which approximate fair value at December 31, 2020 and 2019.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Fair Value Measurements

MAC Foundation measures fair value using a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own judgments about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). MAC Foundation may use valuation techniques consistent with the market, income and cost approaches to measure fair value.

Fair value measurement categorizes the inputs used to measure fair value into the following three categories:

- Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that MAC Foundation has the ability to access as of the measurement date. The types of investments typically considered Level 1 include public equities, exchange traded futures and mutual funds;
- Level 2: Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active. Investments typically classified as Level 2 include credit securities, options and forward foreign currency contracts;
- Level 3: Inputs that are unobservable. Unobservable inputs reflect MAC Foundation's own assumptions about the factors market participants would use in pricing investments and are based on the best information available in the circumstances. Investments typically classified as Level 3 include certain equity, private credit and real asset investments where the valuation was based on unobservable market data, and certain investments in funds which are not valued using NAV as a practical expedient. Level 3 investments were valued using recent transaction prices or discounted projected cash flows.

Investments valued using NAV as a practical expedient have not been categorized within the fair value hierarchy in accordance with ASC Topic 820.

NOTE 2 – INVESTMENTS

Investments are stated at fair value and consisted of the following at December 31, 2020 and 2019:

		2020							
		Cost		Fair Value					
Cash and Cash Equivalents	\$	248,434,180	\$	248,446,476					
Equity	·	851,414,018		1,029,700,625					
Credit		726,544,527		814,493,086					
Private Credit		147,111,696		195,343,574

Real Assets		476,030,235		620,817,317					
	\$	2,649,664,939	\$	3,287,978,747					
		20	19						
		Cost		Fair Value					
Cash and Cash Equivalents	\$	117,808,175	\$	117,817,210					
Equity		765,238,399		971,953,962					
Credit		855,013,210		933,327,836					
Private Credit		133,646,322		167,536,113					
Private Equity		180,555,799		273,388,751					
Real Assets		474,199,822		637,127,132					
	\$	2,526,461,727	\$	3,101,151,004					

As of December 31, 2020, MAC Foundation has committed approximately \$616 million in capital to be called over the next 1 to 12 years.

NOTE 3 – FAIR VALUE MEASUREMENTS

MAC Foundation values its investments as described in Note 1. The tables that follow set forth information about the level within the fair value hierarchy at which MAC Foundation's investments are measured at December 31, 2020 and 2019:

Real Assets	551,721,490	2	292,904,972	Quarterly to Not Available***	30 days to Not Applicable

- * Approximately 14% is subject to rolling lock-ups ranging from 2-3 years.
- ** Approximately 4% is subject to a rolling 1 year lock-up.
- *** Approximately 12% is subject to lock-up restrictions expiring in the next 1-2 years.

For investment funds where redemptions are not available, the timing of expected liquidation is unknown.

Equity funds generally invest globally (U.S. and non-U.S. markets) in large-, mid- or small-capitalization common or preferred stocks or convertible bonds. Equity funds also include funds with equity long/short and market neutral strategies. Funds with these strategies generally invest in diversified portfolios, including equities, fixed income securities and derivatives; these funds may use leverage, sell financial instruments short and/or invest in illiquid investments.

Credit funds generally invest in interest-bearing securities that make periodic payments including bonds, Treasury issues, mortgage and other asset-backed securities, and non-U.S. dollar-denominated debt instruments, all of which may be of varying maturity, currency exposure and credit quality. Credit funds also include funds with macro, relative value and event driven strategies. Funds with these strategies generally invest in diversified portfolios, including equities, fixed income securities and derivatives; these funds may use leverage, sell financial instruments short and/or invest in illiquid investments.

NOTE 3 - FAIR VALUE MEASUREMENTS - Continued

Private credit funds generally invest in both public and private financial instruments, debt and equity securities, real estate assets, and their related instruments. These funds may also participate in the origination of loans and may use leverage. These investments are generally illiquid.

Private equity funds generally make investments, both global and domestic, directly into private companies or conduct buyouts of public companies that may result in a delisting of public equity. Capital can be used to fund new technologies, to expand working capital within an owned company, to make acquisitions or to strengthen a balance sheet, among other things. These investments are generally illiquid and may use leverage.

Real assets funds generally make domestic and global investments in timber, real estate, commodities, infrastructure, agriculture, energy and energy-related investments. They may be public or private investments and may use leverage.

The fair value of MAC Foundation's investments is based on available information and does not necessarily represent amounts that might ultimately be realized, which depend on changing circumstances and cannot be reasonably determined until the investments are actually liquidated. The fair value may differ significantly from the values which would have been used had a ready market for the investments existed.

NOTE 4 – DERIVATIVE INSTRUMENTS

MAC Foundation utilizes futures to gain market exposure to various equity indices, currencies and interest rates at a reasonable cost. MAC Foundation utilizes interest rate options to hedge inflation risk and sells equity options to collect premiums within certain strategies. MAC Foundation utilizes forward currency contracts to facilitate purchases and sales of non-dollar securities and to hedge foreign currency exposure.

MAC Foundation accounts for derivative financial instruments in accordance with ASC 815, *Derivatives and Hedging*. MAC Foundation records all derivative instruments at fair value and these derivatives do not have hedge designation.

Upon entering into a futures contract, MAC Foundation is required to deposit cash with the broker in an amount equal to the margin requirement for the contract. The fluctuations in fair value during the contract term are recognized as unrealized gains or losses and are settled daily with cash through a margin account held at the broker (referred to as variation margin). When a contract is closed, MAC Foundation recognizes a realized gain or loss.

Upon entering into a forward foreign currency contract, MAC Foundation agrees to exchange one currency for another on an agreed-upon date at an agreed-upon exchange rate. The fluctuations in fair value are recognized as unrealized gains or losses until the contract is settled, at which time a realized gain or loss is recognized.

NOTE 4 – DERIVATIVE INSTRUMENTS – Continued

Upon entering into a purchased option contract, MAC Foundation has the right, but not the obligation, to buy or sell within a limited time, a financial instrument at a contracted price that may also be settled in cash, based on differentials between specified indices or prices. Upon entering into a written option contract, MAC Foundation is obligated, in return for a premium, to buy or sell within a limited time, a financial instrument at a contracted price that may also be settled in cash based on differentials between specified indices or prices. Fluctuations in fair value are recognized as unrealized gains or losses until the contract option is exercised or the contract is closed, at which time MAC Foundation recognizes a realized gain or loss.

Derivative instruments have market risks, including the risk that equity markets, interest rate markets and currency markets may change, resulting in a loss in the value of the investment. Credit risk associated with these instruments includes the risk of failure of the counterparty to pay based on the contractual terms of the agreement.

The fair value of the derivative instruments included in the investments line item on the consolidated statements of financial position as of December 31, 2020 and 2019 are listed in the table below:

	2020					
	N	otional Value		Fair Value		
Equity Contracts Futures-Assets		199,794,157	\$	626,883 *		
Foreign Currency Contracts						
Futures-Liabilities		2,820,240		(236,809) *		
Forward Currency Contracts-Assets		520,915,947		28,596,809		
Forward Currency Contracts-Liabilities		(543,370,860)		(32,378,024)		
Interest Rate Contracts						
Futures-Assets		745,380,164		1,948,559 *		
Options-Assets		100,000,000		420,050		
Options-Liabilities		100,000,000		(164,024)		

^{*} Amount included above represents the variation margin on open futures positions. Open futures contracts consist of long equity, foreign currency and interest rate futures with cumulative unrealized gains of \$4,845,356, \$7,514 and \$860,038 respectively, at December 31, 2020.

NOTE 4 – DERIVATIVE INSTRUMENTS – Continued

	2019					
	N	otional Value	Fair Value			
Equity Contracts						
Futures-Assets	\$	186,951,150	\$	212,382 *		
Options-Assets		14,628,000		121,210

Options-Liabilities	20,000,000		-	

MAC Foundation holds over-the-counter derivative instruments that are subject to an enforceable master netting arrangement. MAC Foundation presents these derivative instruments on a gross basis in Note 3 even though they may qualify for net presentation if they were executed with the same counterparty under the same master netting agreement.

NOTE 4 - DERIVATIVE INSTRUMENTS - Continued

The following table provides disclosure regarding the potential effect of offsetting of recognized assets and liabilities as of December 31, 2020 and 2019:

	2020					
	Gr	oss Amounts				
		Recognized	Amounts Not Offset	Net Amount

Forward Currency Contracts-Liabilities		(7,834,871)	6,791,058	(1,043,813)		

NOTE 5 – PROGRAM-RELATED INVESTMENTS

MAC Foundation has program-related investments made for charitable purposes, including a below-market loan to a charitable organization and an equity investment recorded at fair value.

The interest rate on the loan is 2%. In the event that a program-related investment loan is determined to be uncollectible or the value is permanently impaired, MAC Foundation may record the uncollectible amount as an allowance. MAC Foundation management reviews, at least annually, the status of all program-related investments to determine whether an allowance is necessary. At December 31, 2020 and 2019, there were no past due amounts and an allowance was not warranted. The loan receivable at December 31, 2020 and 2019 is shown net of the unamortized discount.

The equity program-related investment was purchased for \$5,000,000 and is valued using NAV as a practical expedient.

There were no unfunded commitments on program-related investments at December 31, 2020 and 2019.

NOTE 6 – FIXED ASSETS

Fixed assets are stated at cost and depreciated using the straight-line method over estimated useful lives. MAC Foundation's policy is to periodically review the estimated useful lives of its fixed assets. Depreciation expense for the years ended December 31, 2020 and 2019 is \$3,172,024 and \$3,230,334, respectively. Detail of fixed assets held at December 31, 2020 and 2019 is:

	2020			2019	
Land and Improvements	\$	6,980,140		6,980,140	
Building		50,524,516		50,524,516	
Furniture and Equipment		3,916,509		4,120,151	
		61,421,165		61,624,807	
Accumulated Depreciation		(16,866,946)		(13,898,564)	
Total Fixed Assets	\$	44,554,219	\$	47,726,243	

NOTE 7 – INCOME TAX

For the year ended December 31, 2020, MAC Foundation is subject to a 1.39% excise tax on its net investment income (Federal Investment Excise Tax) following a legislative change in the tax rate that was effective as of January 1, 2020. Prior to 2020, MAC Foundation was subject to a 2% Federal Investment Excise Tax.

Deferred taxes result from certain income and expense items being accounted for in different time periods for financial statement purposes than for tax purposes. Deferred Federal Investment Excise Tax expense generally arises from the change in unrealized appreciation in investments as well as book versus tax basis differences on flow-through investments. Because deferred items as of December 31, 2020 would not be realized until 2021 or later, the financial statements reflect deferred taxes at the 1.39% excise tax rate.

MAC Foundation is also subject to federal and state income tax on unrelated business income (UBI) activities of certain investments, generally taxed at regular corporate income tax rates. MAC Foundation estimates the activities will not produce net income for the years ended December 31, 2020 or December 31, 2019.

NOTE 7 – INCOME TAX – Continued

Income taxes for the years ended December 31, 2020 and 2019 consist of the following:

	2020		2019	
Expense (Benefit):				
Current UBI Tax	\$ (12,478)	\$	(55,631)	
Current Federal Excise Tax	4,084,640		2,614,857	
Deferred Federal Excise Tax	713,061		3,104,600	
Other Taxes	 _		395	
Total	\$ 4,785,223	\$	5,664,221	
Current UBI Tax Receivable:	\$ 20,226	\$	345,562	
Liability:				
Current UBI Tax	\$ -	\$	5,000	
Current Federal Excise Tax	918,471		122,164	
Deferred Federal Excise Tax	6,333,031		5,619,970	
Total	\$ 7,251,502	\$	5,747,134	
Deferred Federal Excise Tax	\$ 6,333,031	\$	5,619,970	

NOTE 8 – GRANTS PAYABLE

MAC Foundation has future grant commitments as follows at December 31, 2020:

<u>Year Payable</u>	
2021	\$ 52,287,076
2022	33,157,629
2023	7,545,000
Discount on Grants Payable	 (120,765)
Total	\$ 92,868,940

Discounts based on short-term interest rates ranging from 0.1% to 2.5% were used to estimate the net present value of grants payable.

NOTE 9 – RELATED PARTY TRANSACTIONS

During 2020 and 2019, MAC Foundation was a party to a shared services agreement with a related party, Anne Ray Foundation (Anne Ray), for certain services such as grantmaking, investment management and execution, financial, and general and administrative. Costs were allocated based on certain metrics such as relative grantmaking allocations, investment values, people and other relevant measures. MAC Foundation paid 47% of the total cost of these services for each of the years ended December 31, 2020 and 2019. For the years ended December 31, 2020 and 2019, the net amounts reimbursable to MAC Foundation from Anne Ray were \$21,473,926 and \$20,535,111, respectively. The costs of these services are included in grantmaking expense, management and general expense and investment expense; investment expense is netted against investment return in the consolidated statements of activities. The net amount due at December 31, 2020 and 2019 under this arrangement was \$14,072,118 and \$13,226,895, respectively. The related party receivable is included in receivables and prepaid expenses in the accompanying consolidated statements of financial position.

NOTE 10 – EXPENSES

The tables below present expenses by both their nature and their function for the years ended December 31, 2020 and 2019.

	2020					
		Grants and Grantmaking		Management and General		otal Expenses
Grants	\$	160,271,416	\$	-	\$	160,271,416
Compensation and Benefits		14,612,173		7,435,674		22,047,847

Travel and Conferences		195,364		86,166		281,530
Technology and Office Equipment		531,065		309,125		840,190
Other		406,791		323,423		730,214
Total Expenses		180,414,736		10,308,053		190,722,789
Expenses reimbursed from Anne Ray		(9,859,276)		(5,193,093)		(15,052,369)
Total MAC Foundation Expenses	\$	170,555,460	\$	5,114,960	\$	175,670,420

NOTE 10 - EXPENSES - Continued

	2019			
	Grants and Grantmaking	Management and General	Total Expenses	
Grants	\$ 102,193,476	\$ -	\$ 102,193,476	
Compensation and Benefits	13,741,137	6,728,882	20,470,019	
Occupancy and Depreciation	2,338,376	1,333,307	3,671,683	
Consulting and Professional Services	2,692,016	1,002,294	3,694,310	
Travel and Conferences	1,015,117	217,615	1,232,732	
Technology and Office Equipment	703,194	423,062	1,126,256	
Other	396,516	257,668	654,184	
Total Expenses	123,079,832	9,962,828	133,042,660	
Expenses reimbursed from Anne Ray	(9,960,035)	(4,981,276)	(14,941,311)	
Total MAC Foundation Expenses	\$ 113,119,797	\$ 4,981,552	\$ 118,101,349	

Costs are allocated to grantmaking and management and general based on certain metrics such as people and square footage.

NOTE 11 – RETIREMENT PLANS

MAC Foundation sponsors a qualified defined contribution plan which allows eligible employees to make voluntary contributions within certain limits. MAC Foundation matches employee contributions to the plan up to 5% of compensation, subject to regulatory limits; in addition, MAC Foundation has the ability to make discretionary contributions to the plan. During the years ended December 31, 2020 and 2019, MAC Foundation had \$2,301,727 and \$2,155,023 in total expense related to the qualified defined contribution plan, respectively.

MAC Foundation sponsors an unfunded, non-qualified voluntary salary deferral plan under IRC Section 457(b) for a select group of management or highly compensated employees. Total expenses related to the non-qualified salary reduction plan were \$67,275 and \$48,934 for the years ended December 31, 2020 and 2019, respectively.

MAC Foundation also sponsors an unfunded, non-qualified deferred compensation plan ("the Restoration Plan") under IRC Section 457(f) for the purpose of providing deferred compensation for a select group of management or highly compensated employees. The Restoration Plan provides deferred compensation benefits for eligible employees who did not receive full contributions to qualified defined contribution plans which would otherwise have been available but for IRC compensation limits. Total expenses related to the Restoration Plan were \$3,204,232 and \$2,574,935 for the years ended December 31, 2020 and 2019, respectively.

NOTE 11 – RETIREMENT PLANS – Continued

MAC Foundation sponsors an unfunded, retirement reimbursement account that provides postretirement benefits to cover medical expenses of full-time employees who meet specific age and years of service requirements. MAC Foundation paid \$74,295 and \$65,550 in benefits associated with this plan during the years ended December 31, 2020 and 2019, respectively. The accumulated postretirement benefit obligation of \$12,704,265 and \$9,574,328 as of December 31, 2020 and 2019, respectively, was estimated based on employee census data and various assumptions about retirement, turnover, mortality and interest rates. The discount rates of 2.7% and 3.6% as of December 31, 2020 and 2019, respectively, were derived using anticipated timing of projected cash payments and a yield curve of high quality fixed income securities. Estimated future benefit payments, which have been adjusted to reflect future service costs, were as follows as of December 31, 2020:

<u>Year</u>	
2021	\$ 150,308
2022	183,354
2023	221,003
2024	260,446
2025	296,593
2026-2030	2,031,344

NOTE 12 – LIQUIDITY

MAC Foundation structures its financial assets to be available and liquid as its grants, general expenditures, liabilities, and other obligations become due. To achieve this, MAC Foundation uses a rolling 12-month cash flow forecast and monitors its liquidity on a monthly basis. Consistent with its investment policy, MAC Foundation holds at least 30% of the investment portfolio in assets that can be sold within one month and it invests excess cash in short-term investments such as money market funds. MAC Foundation also has additional liquidity available through its line of credit (discussed further in Note 13).

Financial assets available within one year:	2020		2019	
Cash and Cash Equivalents	\$	22,261,231	\$	18,601,465
Receivables		6,190,626		7,736,249
Investments		2,018,541,094		1,966,627,979
Total financial assets available within one year	\$	2,046,992,951	\$	1,992,965,693

NOTE 13 – LINES OF CREDIT

MAC Foundation has unsecured lines of credit totaling \$125,000,000 and \$62,500,000 as of December 31, 2020 and 2019, respectively. The lines of credit have interest rates of either LIBOR plus 0.75-1.00% or the lender's prime rate, elected by MAC Foundation at the time of borrowing. During the year ended December 31, 2020, MAC Foundation borrowed \$62,500,000 and repaid it in its entirety, incurring interest at an average annual borrowing rate of 1.26%. There were no borrowings against the lines of credit during the year ended December 31, 2019.

NOTE 14 – COVID-19

The global outbreak of COVID-19 has disrupted economic markets and the prolonged economic impact is uncertain. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, on reporting periods subsequent to December 31, 2020 are not known. The operational and financial performance of the issuers of securities in which MAC Foundation invests depends on future developments, including the duration and spread of the outbreak, and such uncertainty may in turn adversely affect the value and liquidity of the MAC Foundation's investments.

NOTE 15 – SUBSEQUENT EVENTS

In preparing these consolidated financial statements, MAC Foundation has evaluated events and transactions for potential recognition or disclosure in these consolidated financial statements through September 20, 2021, the date the consolidated financial statements were available to be issued. No material events require recognition or disclosure in the consolidated financial statements.

Margaret A. Cargill Foundation and Subsidiaries Supplemental Statement of Activities and Functional Expense Analysis For the year ended December 31, 2020

These supplementary schedules are included to present MAC Foundation operations (MAC Foundation Standalone) separately from the activities attributable to related party transactions referred to here as Anne Ray activity (see Note 9).

SUPPLEMENTAL SCHEDULE OF ACTIVITIES For the year ended December 31, 2020
